ADD/A (Colonel White) [REDACTED]

11 January 1952

1. Messrs. [REDACTED] Peel, [REDACTED] Pforzheimer and I visited the Langley site which is under possible consideration for the new building. It is a good site but presents many problems, particularly the bottleneck in approximately two miles of road from the Chain Bridge to the site and the absence of public transportation facilities to handle peak loads. It was the consensus that we should ask PBS to develop information concerning the solution of these two problems in the future. However, Bill Peel and I both feel that we cannot consider the Langley site at this time; this brings us back to the Soldiers' Home site which I hope you will see as soon as you possibly can. *Done 14 Jan.*

2. Sheff Edwards and I conferred with [REDACTED] and obtained his resignation which is to be effective on 19 January 1952. [REDACTED] has been completely debriefed and nothing remains at the present time except to have him turn his badge over to [REDACTED] as he walks out some time between now and then.

3. I talked with Mr. Hedden and asked him to hold up his report concerning our unclassified pool until we could make a more accurate check as to the seriousness of the pay problem over there, and have arranged for Personnel to make a complete check and report to me by Monday night.

4. Dr. Chadwell telephoned to say he understood that as a part of the merger of SO and PC there was being developed an intelligence support organization. He was concerned for fear it conflicted with his and other intelligence support missions. I told him that to the best of my knowledge and belief his information was erroneous and that there was no conflict but that I would verify this and call him again.
